

Motion Title:

Motion to make VIG meeting duration 90 minutes (3p to 4:30pEST)

To Amend:

n/a

Current:

The tradition of the Virtual Intergroup Business Meeting has been to try and keep the meeting about an hour long. This is not codified in our Bylaws or Policies and Procedures, so this is not an amendment to either.

As our Intergroup has grown, the business being brought to the meeting has increased. Frequently we have had to ask the group to vote, mid-meeting, to extend the duration of the meeting in order to try and finish the business on the agenda.

Proposed:

I move that we extend the duration of the VIG Meeting to 90 minutes on the calendar and communicate this to reps and committee members to set the appropriate time expectations for their service.

Primary Purpose:

The intention of the change is simply to amend the schedule.

Intent:

Since this is not a change to our Bylaws or Policies and Procedures, this is just to help our members know how long to expect the VIG Meeting to last.

Implementation:

Change the duration on the Meetings page to 90 minutes

Cost:

0

Time Frame:

right away
