

**Motion Title:**

Upgrade Zoom Cloud Storage {100 GB}

---

**To Amend:**

Current Zoom Default Storage Space {5GB}

---

**Current:**

Currently, as part of our business plan with Zoom we receive one GB of cloud storage space per account {x5} which gives us a total of 5GB in total. As we grow, our growing body of recordings are filling much more quickly, and need to be removed more regularly.

---

**Proposed:**

After a consultation with our Zoom Business Manager, we were offered an increased Cloud storage space of 100 GB at a cost of \$53 per month.

---

**Primary Purpose:**

To carry the message to the compulsive eater who still suffers.

---

**Intent:**

To free up ample storage space to ensure that all our speaker meetings, training sessions, committee and VIG meetings recordings are recorded as required.

---

**Rationale:**

Our 5GB Cloud Storage limit is quite small given the growth of OA Foot Steps VIG, and if recordings start to build up and are not cleared right away, we risk losing future recordings if there is no more space available at that time.

---

---

**Implementation:**

Upon instruction, our Zoom Business Manager would upgrade our account features, and we would be billed accordingly. The prudent reserve would be adjusted to reflect this amount.

---

**Cost:**

\$53/month | \$636/year

---

**Time Frame:**

immediately
