PRIMARY PURPOSE:

The primary purpose of those motion would be to open channels of communication between our members, our committees, our board and to better promote ongoing activities, and keep our fellowship informed with the happenings taking place within the OA Foot Steps Virtual Intergroup.

RATIONALE:

We have not had any easy method of sharing information to all our meetings. Constant Contact allows members to sign up to stay informed, and to remove themselves easily from the email list if they no longer require this service.

This is a common application utilized by most intergroups and regions across OA and considering the size of our own intergroup it makes sense that we take measures to provide an appropriate method to effectively communicate with our membership.
